

My name is Yolanda Escalante.

I began my medical career as a medical assistant immediately after high school. Soon, I realized that I wanted to pursue a lifelong career in the medical profession. I graduated with a BSN from Stephen F. Austin State University in 2010. I primarily focused on working with the pediatric population for the following ten years.

In 2020, I completed my MSN from the University of Texas at Arlington's Family Nurse Practitioner program and received certification from the AANP. After graduating, I started working at The Agape Clinic, providing primary care and women's health.
